TO OUR PROSPECTIVE CUSTOMERS

We are appreciative of the confidence expressed by those who have favored us with their patronage. We can only show our gratitude by continued good service and by the continued shipment of first class plants.

To those of you who have not yet given us the chance to serve you, give us that opportunity and we are sure we can merit your continued good will and confidence.

We have now consolidated all our operations at the nursery on Lane Road. A new greenhouse, larger packing and storage facilities, plus a telephone all at one location now enables us to serve you to better advantage.

We are easy to find on Lane Road, Perry Township in Lake County. Lane Road is approximately three miles east of Painesville on U.S. Route 20. Traveling east, turn right on Lane Road, go about a mile and a half and we are on the right about a city block after crossing the New York Central tracks. Going east on U.S. Route 84 from Painesville, Lane Road is to the left at the junction of State Route 307. From this direction we are less than a mile from the Nickel Plate crossing.

HARDY PERENNIALS

Don't sell perennials short! There is nothing like them for filling in those otherwise vacant holes in the shrub and evergreen border. And of course a bed or border of all perennials can be a joy for years to come. No bothersome replanting every year.

Your customers may have never known, or have forgotten the beauty of the old-fashioned Bleeding-heart. Now there is the new Zestful to greet them all summer with its constant display of lovely rose-pink. The new Veronicas also make a long-lasting picture. New Aquilegia McKana, the lovely Pacific Delphiniums, the early pure white of Candytuft, the colorful mat of Creeping Phlox and many other lovely plants can fill a spot in their gardens and in their hearts.

Don't forget the ground-covers for those difficult spots in shade. Pachysandra, Ajuga, and Hedera can fill these in beautifully and permanently and save all the disappointments to be experienced with grass in these awkward places.

Make some of these plants, and many other varieties listed, available for your customers now and in the future. They will thank you for it and you will profit also.

- Helix Gracilis, rooted cuttings**..100 \$6.00 1000 \$55.00
A smaller leaf than the above but a faster grower. Useful as a ground-cover as well as on stone or brick.

ROCHESTER IVY

(Hedera Helix Rochester)

Picture the ideal ground cover in your mind and see if it fits this description. Uniform growth, 6 inches high, with leaves by the hundred that completely obscure the soil. A bright, shiny emerald green cushion, cool and pleasing in summer, weather resistant and attractive all winter long.

Rochester Ivy came through the fiercely destructive winter of 1958-59, shiny bright. The very short internodes send off many leaves and branches without a long trailing tangle of runners. To our knowledge this is the most refined Ivy ground cover that exists. We can vouch for its beauty and effectiveness and are sure that you can't go wrong with this one. We can't vouch for its hardness north of Ohio, but it is wonderfully hardy here. So nicely self contained that it can be used in place of Pachysandra where you wish to obtain interesting variations. Florists and interior designers find that all its good outdoor characteristics are retained and magnified when used indoors.

- Rooted Cuttings**100 \$15.00 1000 \$135.00
PotsDoz. \$4.25 100 \$25.00 1000 \$225.00

WILSON'S IVY

(Hedera Helix Wilsoni)

Reliable and absolutely without equal in hardness. Thick leathery leaves of a deep forest green. Best choice for the toughest exposures. Our stock comes from Jos. F. Martin Co. who got theirs from the discoverer of this hardiest of Ivies, Mr. Lawrence Wilson of Valencia, Pennsylvania. After 30 years the original plant still prospers.

- Rooted cuttings**\$15.00 per 100

ORIENTAL POPPIES — Profit for YOU!

Mostly a Fall item, these are in short supply for this Spring. Only Barr's White, Carnival, Crimson Pompon, Gold of Ophir, Helen Elizabeth, Raspberry Queen and Curtis Salmon Pink are available now. We would be glad to reserve any variety for your sales this Fall.

These now come in softer shades and colors, out-dating the old flamboyant orange-red. There is now the soft pink of Curtis Salmon, the delicate lavender shading of Henry Cayeux. And of course the new and exciting watermelon-red of May Curtis with its mammoth flowers. Another fast comer is Raspberry Queen.

Just set up a tray of not too damp sphagnum or vermiculite, stand the plants in and let the customers help themselves. Try 25 each of half a dozen varieties. They are sure to sell. And if you are in the mail-order business, list several varieties in your catalog. They are sure to be money-makers for you.

Barr's White Doz. \$3.60 100 \$25.00
